

# Recycling and Non-Hazardous Solid Waste Disposal at Stennis Space Center, April 2010

| Material                             | Dumpster | Rubbish Site | Designated Containers | Recycle Bins | Other | Conditions   |
|--------------------------------------|----------|--------------|-----------------------|--------------|-------|--|
| Aerosol cans                         |          |              | X (1)                 |              |       |  |
| Alum cans / Plastic bottles          |          |              |                       | X (2)        |       |  |
| Antifreeze, used                     |          |              | X (1)                 |              |       |  |
| Batteries, alkaline                  |          |              | X                     | X            |       | Contact FOSC ES (x8-1526) for Green Box Locations                    |
| Batteries, lead-acid                 |          |              |                       |              | X     | Send to Redistribution, Building 2204                                |
| Batteries, other                     |          |              | X(1)                  |              |       |  |
| Cardboard                            |          |              |                       | X (2)        |       | Custodians will take broken down boxes to bins                       |
| Cartridges, Ink Jet                  |          |              |                       |              | X     | See note (4)   |
| Cartridges, Toner                    |          |              |                       |              | X     | Place in out-going mail  |
| CFC Refrigerants                     |          |              |                       |              | X     | Recycled through FOSC HVAC shop                                      |
| Compact disks                        |          |              |                       | X            | X     | Contact FOSC ES (x8-1526) for Green Box locations                    |
| Computers & Accessories (Gov. Owned) |          |              |                       |              | X(6)  | Send to Redistribution, Building 2204                                |
| Fluorescent bulbs                    |          |              | X (1)                 |              |       |  |
| Glass                                |          |              |                       | X            |       | Contact FOSC ES (x8-1526) for bin locations                          |
| Lighting ballasts                    |          |              | X (1)                 |              |       |  |
| Mercury                              |          |              |                       |              | X (1) |  |
| Metal drums, empty*                  |          |              |                       |              | X (1) |  |
| Metal paint cans, empty*             |          |              | X (1)                 |              |       |  |
| Oily rags / Shop towels              |          |              | X (1)                 |              |       | Shop towel laundering service preferred                              |
| Pallets, unbroken                    |          |              |                       |              | X     | Call Supply Ops for pick up (x8-3264)                                |
| Paper, Mixed (5)                     |          |              |                       | X (2)        |       |  |
| Rubbish, Class II (3)                |          | X(7)         |                       |              | X     | Landfill recyclables staging area or rubbish site as appropriate (7) |
| Scrap Metal                          |          |              | X                     |              |       | Call Supply Ops for pick up (x8-3264)                                |
| Tapes, audio/video                   |          |              | X                     |              | X     | Contact FOSC ES (x8-1526) for Green Box locations                    |
| Telephone books                      |          |              |                       | X(2)         |       | Recycle with mixed paper   |
| Tires                                |          |              | X                     |              |       | Deliver to Equipment Maintenance Shop, Bldg. 2105                    |
| Used Oil                             |          | X (1)        |                       |              |       |  |

1. Send a completed Waste Removal Form (SSC-696F) to Facility Operating Services Contractor (FOSC) Environmental Services (ES) or fax to 688-1326.
2. Call CBC Recycling 228-323-3001 for pick up when full, otherwise on scheduled pick up day.
3. Natural vegetation (tree limbs, stumps, leaves, grass, etc.), brick, mortar, concrete, stone and asphalt.
4. Mail spent cartridges to FOSC Environmental Services, Building 1100.
5. Mixed Paper includes white paper, colored paper, shredded paper, post-it notes, magazines, newspaper, catalogs, and phone books.
6. NASA tagged or non-tagged computers only, does not include ODIN issued units. Hard drives must be cleaned of all data or removed from the unit.
7. Untreated/unpainted wood and concrete are staged for recycling at landfill. All other items (3) disposed of in rubbish site at landfill.

\*EPA's definition of "empty" (40 CFR 261.7) involves such practices as pouring, pumping, and aspirating from the container, resulting in less than 1 inch of residue in the container bottom.
